HIGHLIGHTS

Reminder

Grant funds available for watershed restoration

Funds available for nonpoint source pollution control projects

FRANKFORT, Ky. (April 1, 2015) -- Grant funds are available for projects designed to help clean polluted streams, rivers, lakes, and groundwater and for projects that protect water resources throughout the Commonwealth. Funds aid in watershed restoration projects and watershed plan development as well as other projects that reduce and prevent runoff pollution. [Read more...](#)

Banklick Watershed Council honored for Earth Day 2015

The Banklick Watershed Council Inc. is comprised of volunteers whose mission is to restore, protect and promote Banklick Creek and its watershed. There are 12 different local jurisdictions within the boundary of the Banklick Watershed. The council works in partnership with Planning and Development Services of Kenton County, the Northern Kentucky Health Department and Sanitation District No.1. [Read more.....](#)

The United States Army Corps of Engineers (USACE) is conducting an assessment of the Licking River Basin, the meetings are co-hosted by the Kentucky Division of Water (KDOW).

USACE is in the beginning phases of an Initial Watershed Assessment (IWA) of the Licking River Basin. This is primarily an information gathering phase to collaboratively develop a comprehensive understanding of the problems & opportunities in the Licking River watershed, as well as goals & objectives.
